

A Space to Grow, A Space to Explore, A Space to Excel

The Discovery Preschool's mission is to nurture a curiosity-driven environment through emergent learning so that students can develop a love for exploration, wellness and relationship building.

We work with each student's natural abilities to expand their view of the world in a supportive, caring and interactive environment. Our goal is to instill a passion for learning that will stay with each child throughout his or her life.

CURRICULUM

Our curriculum is rooted in a comprehensive, balanced approach to learning. Our early education programs foster creativity, while also developing critical thinking, and social and emotional skills.

The Discovery Preschools support a diverse, multicultural environment in which we recognize that students learn differently and have various areas of interest.

NEWTOWN PROGRAMS

Our content-rich programs are customized to your child's readiness level, areas of interest, and learning profile (how they learn best). Early childhood is a magical time when the brain develops the vast majority of its neurons and is most receptive to learning.

Our teachers provide meaningful experiences that naturally foster your child's intellectual potential through individualized instruction to meet the developmental needs of each child. Teachers also encourage students to explore their passions, take risks to try new things, and learn from mistakes in a safe, supportive environment.

INFANTS (6 WEEKS - 1 YEAR OLD)

TODDLERS (1-3 YEARS OLD)

PRESCHOOL (3-4 YEARS OLD)

PRE-K (4-5 YEARS OLD)

- Milk is offered with meals.
- All meal options are made with fresh ingredients, nutritionally balanced, and appropriately portioned for growing bodies.
- There are alternative options for breakfast and lunch daily.

FREQUENTLY ASKED QUESTIONS

What are school hours?

The Discovery Preschools are open year-round, Monday through Friday, from 6:30 AM to 6 PM. We are closed on Labor Day, Thanksgiving Day, Christmas Eve, Christmas Day, New Year's Day, Memorial Day, Independence Day, and 3 In-Service Days.

How often do teachers communicate with parents?

Communication is the heart of our program. Line Leader is the application used for daily updates. This app will allow parents to converse freely between home and the classroom teachers.

How big are class sizes?

Class sizes vary depending on age, teacher to student ratio, and classroom square footage.

What if my child has unique learning needs?

We understand that every child is unique and our classes cater to this individuality. With tailor-made programs, children are exposed to an environment that challenges their curiosity, strengthens their self-discipline, and nurtures their social skills. This includes focused learning, a diverse curriculum, and an environment designed to ensure your child's safety and care.

What is the best age to start preschool?

Although experts recommend that children begin preschool between the ages of 2.5 and 4, The Discovery Preschool provides a nurturing learning environment for children as young as 6 weeks old. Our early education curriculum fosters curiosity, equips children with structured learning experiences, and prepares them for social interactions from a young age by caring for each child in every stage of early development.

What Enrichment Activities are included with tuition?

All activities are included, with the exception of swim lessons and private soccer lessons, which are offered selectively at certain locations. All other activities, including cooking, gymnastics, yoga, music, and drama, are part of the package.
